IMEX — Foundational Claim Document v1 (with Metadata)

**Metadata:**
Title: IMEX — Integrated Motion of Earth eXpressed
Version: v1.0
Date of Origin: 05 November 2025
Event Reference: Taurus Supermoon
Author: Ime X on behalf of Liberated Grounds
Rights: Open Source Attribution License (Attribution Required)
Disclosure Type: Defensive Publication — First Disclosure Claim
Document ID: IMEX v1.0 — 2025.11.05 — Liberated Grounds
Tagline: “Time expressed as the Earth actually moves.”

**IMEX — Foundational Claim Document v1.0**
Date of Origin: 05 November 2025 (Taurus Supermoon)
Author / Originator: Ime X, Liberated Grounds
Location: Earth
Pronunciation: EYE-mex (/ˈaɪ.mɛks/)
Meaning: IMEX = Integrated Motion of Earth eXpressed
Tagline: “Time expressed according to how the Earth actually moves.”

**1. Definition**
IMEX is a natural timekeeping system that distributes the 5.2422-day surplus of the tropical solar year across the four seasonal thresholds — the two solstices and two equinoxes — rather than stacking the surplus at the end of the year.
Each portal window consists of 1 full day + 0.31055 fractional day (~7 hours, 27 minutes), centered on the exact astronomical hinge point.

**2. What Makes IMEX New**
Unlike all known systems — Egyptian epagomenal days, Mayan Wayeb, Ethiopian Pagume, Gregorian leap year, 13-moon calendar, or calendar reform models — IMEX:
1. Distributes the surplus time instead of grouping it
2. Aligns the correction to astronomical hinge points, not arbitrary months
3. Preserves the true length of the tropical year (365.2422 days)
4. Treats the fractional remainder as ritual space, not error space
5. Restores time as a living cyclical phenomenon, not a political grid

This constitutes a new calendrical architecture and a new temporal philosophy.

**3. Mathematical Basis**
Idealized full-circle year = 360 days
Real solar year = 365.2422 days
Surplus = 5.2422 days

IMEX handles this through:

4 portals × (1 day + 0.31055 day) = 5.2422 days
0.31055 day = 7h 27m 11s (rounded)
Each portal is a 31h 27m window centered on:
1. Spring Equinox
2. Summer Solstice
3. Autumn Equinox
4. Winter Solstice

**4. Purpose of IMEX**
IMEX restores:
— Time as embodied rhythm
— Portals as ritual space
— Seasonal hinge points as temporal truth
— Fractional surplus as transformation margin

IMEX is a solar-anchored, Earth-aligned, ritual-integrated time system.

**5. Claim of Origination**
This document establishes the authorship, origin, naming, definition, logic, and distribution method of "IMEX as created by Liberated Grounds on 05 November 2025, during the Taurus Supermoon." This version is IMEX v1.0 and is timestamped for legal, archival, academic, and cultural record.

**6. Signature Line (for physical copy)**
